PROJECTS

SkillHub — Smart Learning & Course Discovery Platform

HTML5, CSS3, Bootstrap 5, JavaScript | Self-initiated project | 2026

- Built a responsive course discovery platform with real-time search, category filtering, and a course details modal using Bootstrap 5 and vanilla JavaScript.
- Implemented bookmarking with localStorage and client-side form validation; built with AI-assisted tools and manually reviewed and tested.
- Live Site | Source Code

Green Leaf — Responsive Plant Store Website

HTML5, CSS3, JavaScript | Course project, University of Moratuwa | 2026

- Built a responsive plant-store website with a clean, multi-section layout including product catalogue, pricing, and plant care information.
- Designed a mobile-friendly interface using HTML5, CSS3, and JavaScript, with interactive elements for smooth navigation.
- Deployed the site live via GitHub Pages with version control through Git.
- Live Site | Source Code

Personal Portfolio Website

HTML5, CSS3, JavaScript | Self-initiated project | 2026

- Designed and developed a personal portfolio website from scratch to showcase skills, projects, education, and professional profiles.
- Built a mobile-friendly layout with Home, About, Skills, Projects, and Contact sections, plus a JavaScript light/dark theme toggle and interactive navigation.
- Maintained the source code on GitHub and deployed the portfolio website live via GitHub Pages.
- Live Site | Source Code
